

Please do not allow the Low Power FM (LPFM) to expand their service in a way that would allow LPFM stations to take priority over current FM translator service.

I listen to K-LOVE on my local radio station, 94.3 FM (Chicago). K-LOVE is a radio station that does an amazing public service to listeners across this country. K-LOVE serves me as a resident of the local community by giving me a radio station that is safe, inspiring, and encouraging. I listen to K-LOVE in the morning on the way to work and by listening to K-LOVE, I feel better, and it truly helps me to have a better day than if I hadn't listened to K-LOVE in the morning. Furthermore, I do not have to worry about what kind of message my family will hear while I have K-LOVE on the radio. I am confident that my family will hear a positive, inspirational message while I have K-LOVE playing. This is very important to me.

If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, it would be detrimental to our local community. Thousands of K-LOVE listeners in my local community would no longer have a radio station to play in the presence of their families, especially children, that has such a strong, positive, and uplifting message. Listeners all across America would be forced to turn their radios off and listen to CD's so that they know that they, and their children, will not hear anything that they don't want to hear. By not allowing LPFM stations to take priority over current FM translator service, it will allow K-LOVE to remain on the air and continue providing a safe, educational, informative, and inspiring forum for families all across America, which is something that this country needs.

Please, do not allow LPFM stations to take priority over current FM translator services which provide a strong and important value to people all across our country.

Thank you,  
Christopher Ewers
